EXCEEDS ALL FUNCTIONAL AND LOGISTICAL EXPECTATIONS

TOUGH & DURABLE

COOKING PERFORMANCE

EASY CLEANING &
MAINTENANCE

WARRANTY & AFTER-
SALES SERVICE

A close-up photograph of a large, dark industrial pot or ladle. A bright, glowing stream of molten metal is being poured from the spout of the pot. The background is blurred, showing industrial equipment and structures.

The Evolve model is built With a marine grade stainless steel bench top, supported by a thick robust aluminium frame, encased in colour coated steel sheeting and panels, With heavy duty marine ply.

The Access and Premium models take durability a step higher, designed and manufactured With stainless steel throughout.

You can be confident that the one-piece pressed stainless steel hot plate on all models (and available for custom facilities or retrofits) provides strength, hygiene, longevity and performance.

TOUGH AND DURABLE |

A close-up shot of a person's hand using metal tongs to flip a piece of meat, likely ribs, on a white Furphy Barbecue. The barbecue is a rectangular, flat-top grill with a stainless steel cooking surface. On the grill, there are several ribs and some sliced vegetables. The background is slightly blurred, showing an outdoor setting with other people and tables.

The patented Intuitive Cooking Control used in Furphy Barbecues is simplicity of use for maximum performance.

Thanks to combining this technology and a 444-grade stainless steel hot plate - no more lukeWarm cooking.

The single button, one press button initializes the auto-sterilization of the cook top, as the heat increases to 230oC in quick smart time.

Auto shut-off after 30 minutes (With an option of one-press shutoff) ensures energy efficiency.

COOKING PERFORMANCE |

A person wearing a high-visibility orange and yellow safety vest is shown from the side, leaning over a stainless steel barbecue unit. They are using a high-pressure water spray to clean the interior of the unit. The unit has a flat stainless steel top and a front door that is open. In the background, there is a grassy area and a red car parked on a street.

With no exterior entrapment points, ventilation holes or buttons around the hot plate, high pressure Water cleaning can be used With minimal fuss and Without fear of damaging internal electronics.

The frame of the barbecue is designed to ensure no entrapment ledges or points Where Water, grease or other debris can lodge.

The industry-leading heating up times of the Furphy hotplates also quickens cleaning time for cleaners Who rely on heating to clean the plate. The unique “Waste bag” provides the fastest and most cost-effective method of removing residual cooking Waste on the market.

FAST CLEANING AND MAINTENANCE |

A. Open front door
B. Slide out Waste bag receptacle
C. Dispose of heat-proof bag D] Replace With neW heat proof residue bag. **
