Website moderngardensuae.com

For the child with autism, maximizing their ability to observe the social behavior of others and to share toys and materials is a critical beginning.

DEVELOPMENT OF PLAY

• A child's play progresses through a number of developmental stages (Boucher, 1999): • Sensory motor play • Exploratory and manipulative play • Physical play • Social play • Pretend play

*Play allows children to connect feelings and thoughts with events to enable them to express emotions.
(develop cause and effect thinking for emotions)*

| PLAY EQUIPMENT

LOCOMOTIVE SANTA FÈ XU67

Information:

length: 214 width: 116

age of use: 2-8 security area: 414x322

Age	F.F.H.	M ²
all ages	<0.6m	N/A

IP305FUN REFLECTIONS

Our Fun Reflection wobbly mirrors add a fun, visual element into any play space. Fun Reflections distorts the world around, which helps to challenge perceptions. Mirrors are a fantastic way for children to watch movement and become more aware of themselves and the people around them.

Age	F.F.H.	M ²
all ages	<0.6m	N/A

IP308 TACTILE TOPIARY

Our Tactile Topiary play panel has been designed to create a sensory feature with a variety of different tactile experiences. The spinning and moving counters are great for developing coordination and fine motor skills which many children who undertake play therapies often practice.

IP304

IP304N

Age	F.F.H.	M ²
1+	<0.6m	N/A

IP304 COLOURFLY

Our Colourfly provides fantastic visual stimulation allowing children to look through the coloured wings to see their environment a little differently. Users can control how they change their view and interact with their surroundings.

2.1m

SIT UP SWING

Provides an alternative to the Wave or iSwing whilst still providing the necessary back support at wheelchair transfer height. As well as providing additional support, the Sit Up Swing gives a cocoon feel for children who like to be more supported when engaging in dynamic play activities. The large width of the swing seat allows plenty of room for an adult or carer to sit with a child or for friends to play together.

Age	F.F.H.	M ²
2+	1.5m	21m ²

WAVE SWING

One of the most multi-functional swings available. It can provide a social hub where children can play in groups but also allows a child to sit or lie with support from a family member or carer. The benefits of our nest seat are that it has been designed to be shallower than the traditional nest allowing users to move in and out more easily.

BS101 - PARENT SWING

INFINITY BOWL

Infinity Bowl with its unique dipped edge design has been thoughtfully developed to increase inclusivity allowing far easier access into and out of the bowl. The bowl is designed to sit at an angle which further increases ease of access and provides a comfortable seated position while also enabling the bowl to self-propel; a child need only tilt their body slightly to get the bowl moving.

Age	F.F.H.	M ²
2+	0.3m	8.6m ²

MOONWALKER

Our Moonwalker is a flat, spinning disc which is fantastic fun when used seated, standing or lying down, with each position challenging both balance and coordination for all children. The tactile rubber surface adds additional sensory stimulation.
