| BIBA INTERACTIVE PLAY

Benefit your community as a whole!

- Lets families track their kids' activity milestones against national guidelines.
- Shows how your community playgrounds are used.
- Allows you to make decisions that will make your playgrounds the best they can be for your community!

Get started right away!

Not only can Biba be installed on your new playground builds, but you can add Biba to existing playgrounds as well! Add a Biba kit for immediate play value for your community, and get access to playground usage data right away! Installation is simple, taking only around 15 minutes with standard tools.

What Is Biba?

Biba is a digital/physical game solution for your playground that gets kids more active through the screens they love.

How does it work?

Parents hold the phone at all times while kids follow game directions to use the equipment. Kids then return to the parent to perform special tasks and mini-games and earn rewards!

Families simply download the Biba app to their phone, and select which game they would like to play!

That's when the fun begins!

As families play, they can follow along with how much physical activity their child has achieved and measure against the daily recommended amounts. In fact, Biba is proven to get kids' heart rates 40 percent higher than standard playground play!

But that's not all!

Biba games provide data on how your playground is used, providing you key info such as:

- Peak times of play;
- Popular pieces of equipment;
- The effect of weather on play;
- Estimated levels of physical activity;
- ... and much more!

Our data can help you measure the future impact of new equipment, anticipate maintenance issues, help you build playgrounds to serve your community's ongoing needs and much, much more!
